DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. ***Claims 23-43*** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The Examiner would like to bring to the Applicant's attention to the claimed invention, "message exchange device" After reviewing the Applicant's Specification, there is no evidence that this terminology is being utilized.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 2617

2. **Claim 44** is rejected under 35 U.S.C. 102(e) as being anticipated by Sawanda (U.S. Patent Number 6,421,544 B1).

Regarding **claim 44**, Sawanda discloses a control method for a personal handy phone (1), which reads on claimed "wireless communication terminal," having a first communication device adapted to communicate with a doorway base station (5), which reads on claimed "entrance/exit management apparatus," for managing and entrance/exit of a person (2) carrying the said PHS (1) by a first wireless communication method and a second communication device adapted to restrict communication by a second wireless communication method, the method comprising:

- reception step of receiving an instruction for restricting communication of the second communication device from the entrance/exit regulating apparatus via the first communication device. See column 3 lines 45-62, column 8 lines 48-50 and column 14 lines 11-15 and lines 33-48, respectively;
- a restrictive step of restricting communication of the second communication device in accordance with the instruction received at said reception step. See, column 14 lines 33-58.

The Examiner would like to further explain that the entrance/exit regulation of an individual is being taught by Sawanda in that, in column 7 lines 30-50, Sawanda teaches of the individual passing through a doorway.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
